POLICY

Our efforts at Rose Hill Nursery are constantly directed toward these objectives:

- **QUALITY STOCK**
- **PROMPT, EFFICIENT SERVICE**
- **IMPROVED LANDSCAPE DESIGN**
- **CREATION OF BEAUTY IN EVERYTHING WE DO**

ORDER BLANK

Use convenient order blank on page 24.

ROSE HILL GIFT CERTIFICATE

If the persons to whom you are giving seem to have everything, or you are uncertain as to the type of gift that would be appreciated, please relax! Just give a welcome ROSE HILL GIFT CERTIFICATE in any denomination you wish and let them select the plants they desire from this catalog. Certificate will be mailed as you instruct.

or

Choose from this catalog the items you wish to give. They will be listed on your gift certificate which will be mailed as you instruct.

PLANTING AND GARDENING SERVICE

Rose Hill landscape foremen and planting crews are trained to do a superb job in plant arrangement, planting, graceful edging of lawn areas and final meticulous cleanup. These highly experienced foremen and crews are available to residents of the Twin Cities area and suburbs for planting service from early spring until late fall. Experienced gardeners are available from June 1 until October 1 for trimming hedges, shrubs, evergreens, patio construction and general garden work.

FREE PLANTING BOOKLET

Instructions for planting and care of all nursery stock accompany each order.

THE PLANTING SEASONS

Spring: April and May—Plant all types of nursery stock.

Summer: June thru September—Plant balled and potted shrubs, evergreens and perennials.

Fall: October and November—Plant all types of nursery stock.

Late Fall and Winter: Plant balled shade trees.

VISIT OUR NURSERY

You are cordially invited to visit the nursery. Please feel free to inspect our stock of evergreens, trees, shrubs and perennial flowers.

NURSERY OFFICE HOURS

Monday through Saturday, 8 a.m. to 5:00 p.m. From April 10 to June 1 the nursery and office are open evenings Monday through Friday until 8:00 p.m. and on Sunday from 10:30 a.m. to 5 p.m. to accommodate those who are unable to come during regular hours.

ROSE HILL GUARANTEE

Rose Hill Nursery uses every precaution in the growing and handling of stock so as to supply only vigorous plants of the highest quality. In the event that any tree, shrub or evergreen purchased direct from the nursery at prices listed in this catalog, fails to survive the first growing season, it will be resupplied at one-half the original price provided the plant received proper care and the account was paid when due. Any plant failure must be reported to the nursery by September 1 of the first growing season.

DELIVERY — SHIPPING — POSTAGE

Prices in this catalog are F.O.B. Twin Cities. There are no charges for packing or boxing.

TWIN CITY AREA ORDERS

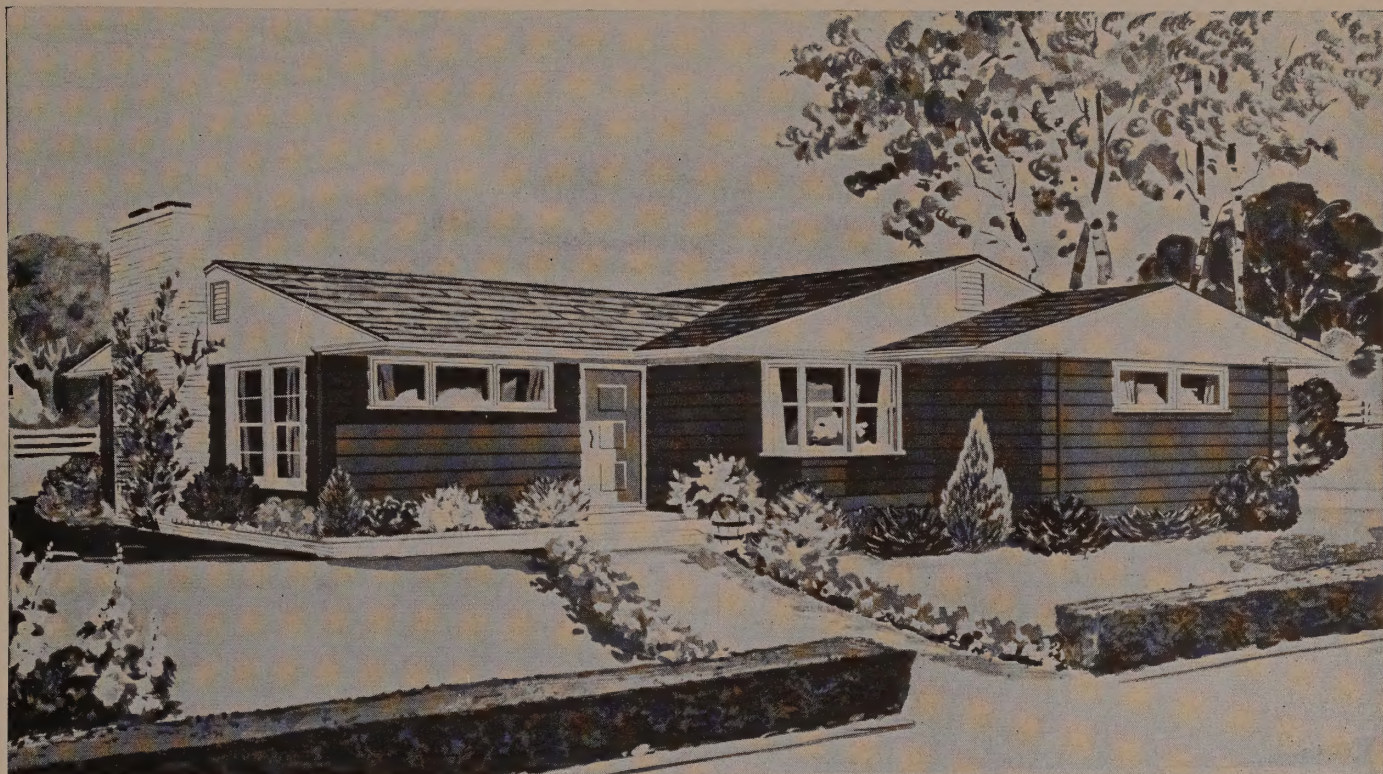

All orders of \$3.00 or over are delivered free of charge. On orders for less, delivery charge of 50c is made.

OUT-OF-TOWN ORDERS

When not instructed, we will use our best judgment as to shipping by express or motor freight.

PARCEL POST

If you desire shipment by parcel post, please specify on your order and add 15% to the purchase price for orders less than \$10.00 or add 10% to the purchase price for orders of \$10.00 or more.

**LANDSCAPING

**COMMERCIAL
PROPERTIES**

MODERN LANDSCAPING offers exciting beauty, family pleasure and relaxing comfort. Your property becomes more gracious and liveable—and up to 25% more valuable. Modern landscaping is a permanent investment.

What other investment does so much? Consider for a moment the rewards of a beautiful landscape—the outdoor living, pleasure for children, exciting views, gracious entertainment, patio privacy, fragrant flowers, healthy recreation, cool shade comfort.

There are 52 weeks in 1961. Almost all of these weeks you live on your own property. Why not begin to enjoy this most important part of your life to the fullest? You can use Rose Hill Landscaping to make your home grounds a delightful place to live. You can place your confidence in Rose Hill Landscape Designers—in their experience, creativeness and sound design. And you can bank on results—beautiful and harmonious blending of plant materials.

Telephone our Landscape Department to arrange a call at your home, or come to the Rose Hill Nursery office. During April and May, our busiest season, we are restricted in the number of calls we can make and therefore will appreciate your consideration in coming to the nursery with measurements of house and lot along with photographs or house plans.

You will find on page 22 a drawing and chart which will assist you in describing your house and property. By following the suggestions on this chart, you will give our Landscape Designers the information needed to work out a beautiful planting design. Tear out this chart, bring to nursery, or mail with house photographs to our Landscape Department.

In the development of larger residences, hospitals, schools, parks, cemeteries, grounds about public buildings or large industrial properties, we suggest a personal call by one of our Landscape Designers.

Display is becoming increasingly important in the sale of any product. Thoughtfully planted shade trees, shrubs, and evergreens beautify the grounds of office buildings, factories, show rooms and service buildings—and they also pay yearly dividends through the favorable reaction of your prospects, your customers, your employees and the general public.

Evergreens . . . for Beauty in All Seasons

Refer to color pictures of evergreens on the back cover of this catalog. Rose Hill evergreens are carefully grown, hardy and reliable. Each evergreen is properly dug with a solid ball of earth and reaches you in prime condition for planting.

PYRAMIDAL EVERGREENS

ARBORVITAE, Pyramidal. (*Thuja Occidentalis Pyramidalis*.) One of the best pyramidal shaped evergreens. Dense and compact with bright green foliage. Very good for planting at the house entrance, around the foundation or elsewhere on the grounds where a narrow growing evergreen is needed.

2 to 2½ ft.....	\$ 5.75	3½ to 4 ft.....	\$11.00
2½ to 3 ft.....	7.25	4 to 5 ft.....	14.00
3 to 3½ ft.....	9.00	5 to 6 ft.....	19.00

ARBORVITAE, Siberian. (*Thuja Occidentalis Wareana*.) An attractive variety which is larger at the base, stockier and not as tall a grower as the Pyramidal Arborvitae. Rich green foliage. See page 3.

18 to 24 in.....	\$7.50	2 to 2½ ft.....	\$9.50
2½ to 3 ft.....			\$12.00

JUNIPER, Moffet's Silver Cedar. (*Juniperus Scopulorum Moffeti*-Grafted.) This has proved to be one of the most popular of all the pyramidal evergreens grown at our nursery. Bright silvery green color with blue overcast. It has dense foliage and holds its color well the entire year. Hardy and drought resistant. See back cover.

2½ to 3 ft.....	\$ 9.50	3 to 3½ ft.....	\$12.00
3½ to 4 ft.....			\$15.00

JUNIPER, Steel Blue Silver Cedar. (*Juniperus Scopulorum Steel Blue*-Grafted.) This is an excellent upright growing evergreen with solid light blue color. Foliage is very dense and always fresh appearing. Gives an overall broad, full effect and is perfectly hardy.

2½ to 3 ft.....	\$ 9.50	3 to 3½ ft.....	\$12.00
-----------------	---------	-----------------	---------

JUNIPER, Welchi Silver Cedar. (*Juniperus Scopulorum Welchi*-Grafted.) Splendid blue green foliage. This variety grows naturally narrow and compact. The color is similar to Moffet's Silver Cedar, but the habit of growth is more narrow. It is hardy and holds its color well.

2½ to 3 ft.....	\$ 9.50	3 to 3½ ft.....	\$12.00
3½ to 4 ft.....			\$15.00

YEW, Upright. (*Taxus Cuspidata Capitata*.) This pyramidal evergreen will thrive in deep shade and therefore is specially suitable for north side foundation plantings. Foliage is a rich, waxy dark green. Grows bushy, with broad base tapering to the top. See back cover.

18 to 24 in.....	\$12.50	2½ to 3 ft.....	\$22.00
2 to 2½ ft.....	16.00	3 to 3½ ft.....	27.00

LOW GROWING EVERGREENS

JUNIPER, Andorra. (*Juniperus Communis Depressa Plumosa*.) A very fine dwarf evergreen that is noted for its unusual coloring—bright green in spring and summer changing to hues of lavender and pink in late fall. It is the lowest of the spreading Junipers, seldom attaining a height over fifteen inches. See back cover.

15 to 18 in. spread....\$6.25	24 to 30 in. spread....\$ 9.50
18 to 24 in. spread.... 7.50	30 to 36 in. spread.... 12.00
3 to 4 ft. spread.....\$15.00	

JUNIPER, Blue Pfitzer. (*Juniperus Pfitzeriana Blue*.) A beautiful new blue spreading evergreen that provides striking contrast to the greens of other evergreens and shrubs. Reaches a height of two feet. Especially desirable in foundation plantings. Hardy and reliable.

18 to 24 in. spread....\$8.50	24 to 30 in. spread....\$10.50
-------------------------------	--------------------------------

JUNIPER, Blue Pfitzer. (*Juniperus Pfitzeriana Blue*.) A spreading evergreen has the same habit of growth as the Pfitzer Juniper but the foliage is more blue.

18 to 24 in. spread....\$7.50	30 to 36 in. spread....\$12.00
24 to 30 in. spread.... 9.50	3 to 4 ft. spread..... 15.00

JUNIPER, Pfitzer. (*Juniperus Pfitzeriana*.) An excellent low spreading evergreen for use at the house foundation or in group plantings. Color is a medium green with a greyish overcast. Height about two feet at full growth. Very hardy. See back cover.

15 to 18 in. spread....\$ 6.25	24 to 30 in. spread....\$ 9.50
18 to 24 in. spread.... 7.50	30 to 36 in. spread.... 12.00
3 to 4 ft. spread.....\$15.00	

JUNIPER, Savin. (*Juniperus Sabina*.) One of the best and hardiest of all dwarf evergreens. Low and spreading. Height about three feet at full growth. Dense, soft, dark green foliage. Very desirable for use underneath house windows, in front of taller evergreens in a foundation planting or in other locations where a low evergreen is needed. See back cover.

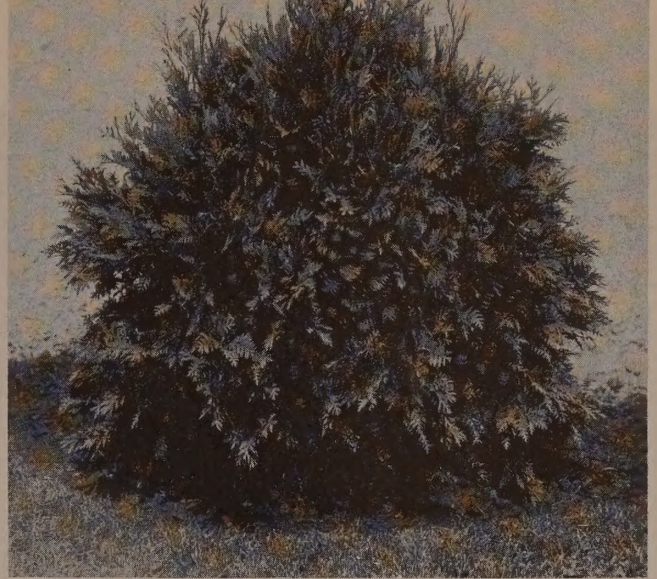

15 to 18 in. spread....\$ 6.25	24 to 30 in. spread....\$ 9.50
18 to 24 in. spread.... 7.50	30 to 36 in. spread.... 12.00

PINE, Mugho. (*Pinus Mughus*.) One of the very best dwarf evergreens. Has a rounded appearance. Hardy, bushy and compact. Dense bright green foliage the year around. Reaches a height of three feet but can be trimmed and shaped as desired. Fine for use in the foundation planting or in front of taller evergreens. See back cover.

12 to 15 in. spread....\$6.25	15 to 18 in. spread....\$7.50
18 to 24 in. spread.....\$9.50	

YEW, Spreading. (*Taxus Cuspidata*.) Low and spreading, this yew thrives in shade and is recommended for north side foundation plantings and other shaded areas. Deep green, glossy foliage. Stands shearing well. See back cover.

12 to 15 in. spread....\$9.00	18 to 24 in. spread....\$14.00
15 to 18 in. spread....11.00	24 to 30 in. spread.... 17.00

SIBERIAN ARBORVITAE (page 2)

LAWN EVERGREENS

PINE, Austrian. (*Pinus Nigra*.) A fast growing pine with long, dark green needles. It has a broad base, tapers gradually toward the top and is quite compact. A fine, decorative lawn tree whether used as a specimen or in groupings with spruce or other Austrian Pine.

2½ to 3 ft.....\$9.50

SPRUCE, Black Hills. (*Picea Canadensis Albertiana*.) Foliage varies from green to bluish tint and is at all times bright and fresh appearing. Tree is compact, bushy and symmetrical. One of the hardiest and most reliable of all spruces. Used to best advantage as a lawn specimen or in groupings.

3½ to 4 ft.....\$15.00	4½ to 5 ft.....\$19.00
4 to 4½ ft..... 17.00	5 to 6 ft..... 25.00

SPRUCE, Colorado. (*Picea Pungens*.) A vigorous and hardy spruce, similar to Colorado Blue Spruce, but with less blue color. It is used individually as a lawn specimen or in a grouping of several Colorado Spruce.

4 to 4½ ft.....\$17.00	5 to 6 ft.....\$25.00
4½ to 5 ft..... 19.00	6 to 7 ft..... 35.00

How to Plant Evergreens

- (1) Dig hole a foot larger and deeper than ball of earth. Provide good, loamy top soil to fill around ball.

Alpine Currant Hedge

ALPINE CURRANT. (*Ribes Alpinum*.) The finest of all low growing hedges. It can be kept at a height from fifteen inches to three feet, as desired. Dense and compact with attractive green foliage. Does well in partial shade.

15 to 18 in.....75c 18 to 24 in.....85c
24 to 30 in.....95c

BARBERRY, Japanese. (*Berberis Thunbergii*.) Makes a low, dense hedge between two and three feet high. The branches have small sharp thorns and bright green foliage which colors to brilliant red in autumn. After the leaves fall, red berries remain on the plant well into the winter. Fine either trimmed or untrimmed in a naturalistic effect.

12 to 18 in.....45c 18 to 24 in.....55c

COTONEASTER. (*Cotoneaster Acutifolia*.) An exceedingly attractive shrub with glossy dark green leaves that color beautifully in the fall. It can be kept at a height from two to five feet, as desired, by proper trimming. Makes a fine medium sized hedge. We recommend spraying Cotoneaster each year about April 1st (before new growth begins) with a solution of 10 tablespoons of Dry Lime Sulphur and one gallon of water to prevent possible infection by scale.

18 to 24 in.....60c 2 to 3 ft.....70c

CLAVEY'S DWARF HONEYSUCKLE. (*Lonicera Compacta Nana*.) This shrub develops a myriad of branches and makes an exceptionally heavy, dense, medium sized hedge between two and five feet high. Attractive dark green foliage. This is a new species of Honeysuckle and has no resemblance to the tall growing Tatarian Honeysuckle listed in next column.

18 to 24 in.....75c 24 to 30 in.....85c
30 to 36 in.....95c

DWARF NINEBARK. (*Physocarpus Opulifolius Nana*.) This plant makes a nice, compact medium-green hedge between two and four feet high. The small leaves are produced in great abundance.

2 to 3 ft.....80c 3 to 4 ft.....90c

Hedges

For PRIVACY and BEAUTY

A well chosen hedge adds to the attractiveness and privacy of your home. Among the following hedge plants are low, medium and tall growing varieties, all of which are hardy and suitable to the climate of the Upper Midwest. These plants are grown in open nursery rows where they have been given ample room for root and top development.

Please note: 25 plants or more are sold at rates below.

GOLDEN DWARF MOCKORANGE. (*Philadelphus Aurea*.) This striking golden yellow plant makes a full, dense hedge of spectacular beauty. It can be kept at a height from two to four feet, as desired. This hedge's golden yellow coloring provides outstanding contrast and blends beautifully with the surrounding green landscape.

9 to 12 in.....70c 12 to 15 in.....80c

HONEYSUCKLE, Tatarian Pink, White or Zabel's Red. (*Lonicera Tatarica*.) A fine tall growing hedge. Equally good trimmed to form or untrimmed in a naturalistic effect. Flowers May and June followed by red berries.

2 to 3 ft.....65c 3 to 4 ft.....75c
4 to 5 ft. (white only).....85c

LILAC, Common White. (*Syringa Vulgaris*.) Desirable as a tall hedge. Grows well under almost any soil condition. Fragrant flowers in May

2 to 3 ft.....75c 3 to 4 ft.....90c

SPIREA, Bridalwreath. (*Spirea Van Houttei*.) A medium sized shrub that makes a graceful, naturalistic hedge. Attractive white flowers and good foliage.

18 to 24 in.....55c 2 to 3 ft.....65c

Clavey's Dwarf Honeysuckle Hedge

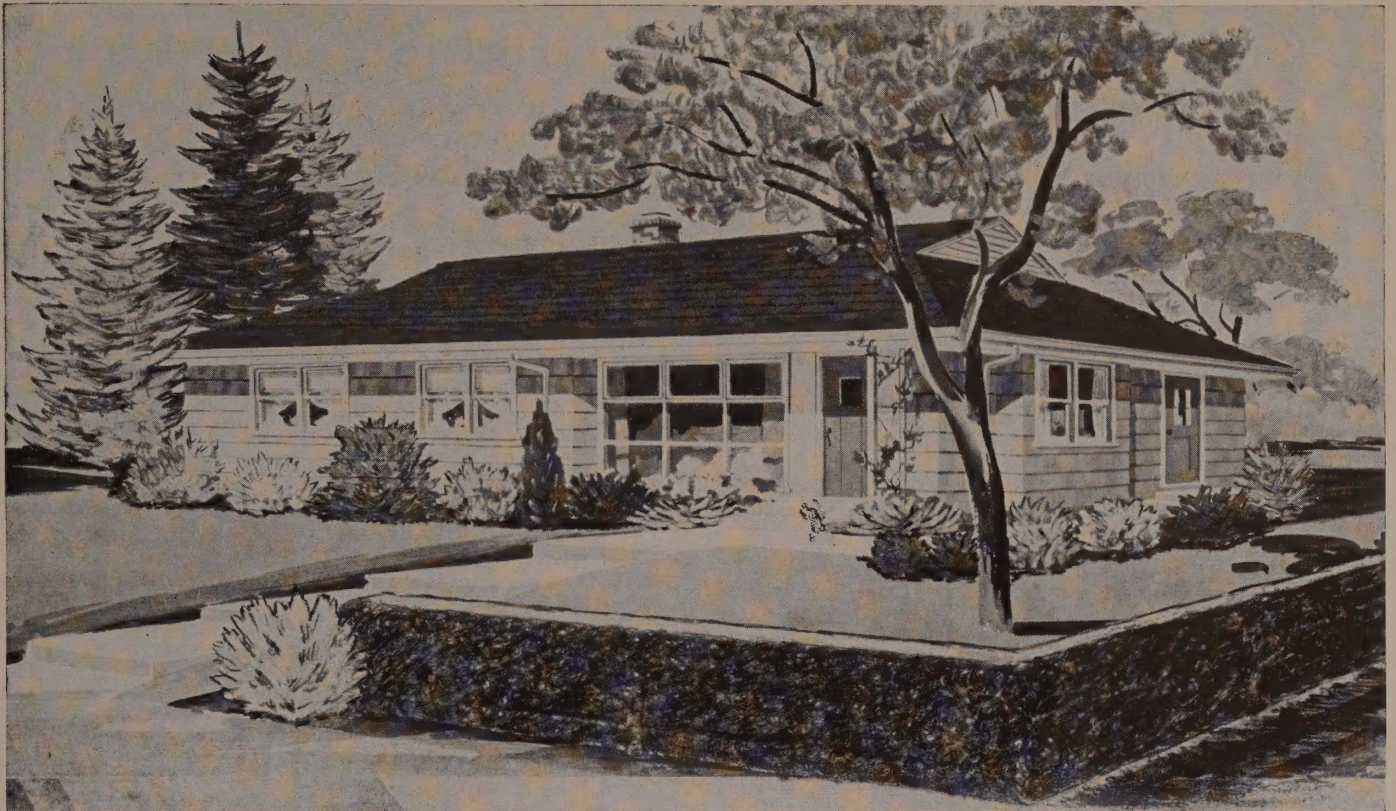

PLANTING THE HEDGE

We recommend planting Cotoneaster 8 inches apart in a single row. If a very wide hedge is desired plant in two rows with the rows 8 inches apart and the plants staggered one foot apart in each row.

Plant Barberry, Alpine Currant, Clavey's Honeysuckle, Dwarf Ninebark and Golden Mockorange one foot apart in a single row.

Plant Lilac, Tatarian Honeysuckle and Spirea 18 to 24 inches apart in a single row.

IMPORTANT: Immediately after planting, trim every hedge plant to at least one-half its original size. This is a minimum requirement. Leaving only the lower one-fourth would be better. By severe trimming you will cause the plants to branch out near the ground and form a dense hedge. Subsequent hedge trimming and shaping may be done at any time during the year.

Climbing Vines

Vines create a graceful, softening effect. Use them for shade, for covering bare areas or for screening out unpleasant views. A flowering vine on a trellis is most attractive.

CLEMATIS HENRYI. White. Large white flowers, some measure seven inches across. Very good against a dark background.

2 year\$1.75 3 year\$2.00

CLEMATIS JACKMANI. Purple. This is the most popular blooming vine. The striking large purple flowers, four to six inches across, completely cover the vine. The refined habit of growth makes its ideal for planting on a trellis.

2 year\$1.75 3 year\$2.00

CLEMATIS MADAME EDWARD ANDRE. Red. Crimson red flowers four to six inches across. Very free flowering.

2 year\$1.75 3 year\$2.00

CLEMATIS PANICULATA. White. The most vigorous growing of the Clematis. The dainty white, star-like, fragrant flowers bloom abundantly, nearly hiding the foliage. The only vine blooming profusely in August and September.

2 year\$1.75

GRAPE, Beta. This grape makes one of the best vines for covering porches and arbors. It is perfectly hardy without winter protection and produces an abundance of fruit.

2 year extra large75c

HONEYSUCKLE, Scarlet Trumpet. (Lonicera Semper-virens.) An old favorite, bearing scarlet, trumpet-shaped blossoms. Blooms practically all summer. Attractive clean appearing foliage. This strong growing vine will often grow 8 to 10 feet in one season.

2 year\$1.00 3 year\$1.25

HONEYSUCKLE, Summer King. (Lonicera Heckrotti.) Large, fragrant, flame-red trumpets lined with gold are borne in immense clusters from early summer until frost. Dark blue-green foliage.

2 year\$1.25 3 year\$1.50

IVY, Boston. (Ampelopsis Vetchi.) The very best of all vines for covering stone, concrete, or brick, as it clings closely to such material without support. The foliage colors to a beautiful red and gold in autumn.

2 year\$1.25 3 year\$1.50

IVY, Engleman's. (Ampelopsis Engelmani.) Will cling to rough stone, brick or concrete surfaces without support. A rapid grower. Foliage turns crimson in autumn.

2 year\$1.00 3 year\$1.25

CLEMATIS CULTURE

Plant in well drained soil. The hole should be a foot wide and eighteen inches deep, filled with at least a foot of rich soil below the roots and also rich soil surrounding the roots. **When planting bare root plants** that are wrapped in moss, cut back all roots, as necessary, to 6 or 8 inches before planting and thin out the small twisted roots in the center. When planting, the roots should point in a downward slanting position like an inverted letter "V" rather than spread out flat, and they should also be separated to keep them from being pressed against each other when the soil is firmed. **When planting potted plants,** remove carefully from the pot and plant about an inch deeper than the top of original pot.

Do not over-water. A thorough watering once a week is all that is necessary. A mulch of peat over the top of the soil is helpful to keep the roots cool. A wood trellis is the best support for climbing.

Colorful Shrubs . . . to Brighten your Home

GROWN BY ROSE HILL FOR THIS CLIMATE

The height shown following the name denotes approximate size at full growth. All shrubs can be kept smaller by trimming.

LOW GROWING SHRUBS

ALPINE CURRANT. (*Ribes Alpinum*.) 3 to 4 ft. A dense growing shrub that is very desirable because of its many uses in the landscape. Equally attractive when used in the border, at the foundation or in a hedge. One of the few shrubs that grows well in either a shaded or sunny location. By trimming it can be kept at any size desired. See page 7.

12 to 15 in.....	\$1.10	18 to 24 in.....	\$1.90
15 to 18 in.....	1.35	24 to 30 in.....	2.40

BARBERRY, Green. (*Berberis Thunbergii*.) 2½ to 3 ft. The bright green summer foliage turns to brilliant red in autumn. After the leaves fall, the spiny branches carry flaming red berries that remain well into the winter. It can be trimmed to a very dense compact hedge. For Barberry Hedge plants see page 4.

12 to 18 in.....	\$1.00	18 to 24 in.....	\$1.50
24 to 30 in.....			\$1.75

BARBERRY, Red Leaf. 2½ to 3 ft. Foliage deep red or purple all season if planted in good sunlight. The spiny branches carry red berries in fall and winter. A valuable shrub for color in foundation plantings and borders. See page 7.

12 to 15 in.....	\$1.25	15 to 18 in.....	\$1.50
18 to 24 in.....			\$1.90

HONEYSUCKLE, Clavey's Dwarf. (*Lonicera Compacta Nana*.) 3 to 4 ft. An outstanding new dwarf shrub developing dense, dark green foliage and growing about as broad as it does tall. Small yellow flowers in May, followed by red berries. See page 7.

18 to 24 in.....	\$1.90	24 to 30 in.....	\$2.25
30 to 36 in.....			\$2.75

MEDIUM SIZE SHRUBS

CHERRY, Purple Leaf Sand or Cistena. (*Prunus Pumila Purpurea*.) 4 to 5 ft. Reddish-purple foliage with bright red leaves at the ends of the branches. Trimming will cause the plant to grow more dense and have bright all-over red color. One of the very best contrast plants. Small single pink flowers in spring. See page 7.

18 to 24 in.....	\$1.90	3 to 4 ft.....	\$3.25
2 to 3 ft.....	2.40	4 to 5 ft.....	4.00

COTONEASTER, Peking. (*Cotoneaster Acutifolia*.) 5 to 6 ft. An attractive dense-growing shrub having shiny dark green leaves that color beautifully in the fall. Very good for planting in the border, at the foundation or as a hedge. It is extremely hardy. Grows well in almost any location and stands shade. The small inconspicuous pink flowers are followed by blue-black berries in the fall. For Cotoneaster hedge plants see page 4.

2 to 3 ft.....	\$1.50	3 to 4 ft.....	\$1.90
----------------	--------	----------------	--------

CORALBERRY, Indian Currant. (*Symphoricarpus Vulgaris*.) 3 to 4 ft. Red fruit which clusters in thick ropes up and down the stems. A bushy, fine textured, deep green foliage shrub which, with its colorful fruit, is very attractive summer, fall and winter. See page 7.

18 to 24 in.....	\$1.00	2 to 3 ft.....	\$1.25
------------------	--------	----------------	--------

MOCKORANGE, Dwarf Golden Leaf. (*Philadelphus Aureus*.) 3 to 4 ft. The striking golden yellow foliage of this shrub gives colorful contrast when used with green and red leaf shrubs or with evergreens. It is a "must" for every foundation planting. Fragrant white flowers in May and June. See page 7.

9 to 12 in.....	\$1.25	15 to 18 in.....	\$2.25
12 to 15 in.....	1.75	18 to 24 in.....	3.00

NINEBARK, Dwarf. (*Physocarpus Opulifolius Nana*.) 4 to 5 ft. This compact growing shrub is densely covered with small bright green leaves. Small white flowers in spring followed by numerous attractive red seed pods. Nicely adapted to the foundation planting or in the border and can be sheared to any shape or size. See page 7.

18 to 24 in.....	\$1.10	2 to 3 ft.....	\$1.35
3 to 4 ft.....			\$1.90

SPIREA, Anthony Waterer. 2 to 2½ ft. Covered with rosy-crimson flowers in flat clusters for many weeks. Attractive green foliage during the summer turning red in the fall. Excellent for foundation plantings and in the shrub border.

9 to 12 in.....	85c	12 to 15 in.....	\$1.10
15 to 18 in.....			\$1.35

SPIREA, Froebel's. 3 ft. Pink flowers in flat clusters are produced in July and August. It resembles Spirea Anthony Waterer but is taller growing. Very good for foundation plantings and for setting ahead of taller growing shrubs or evergreens.

18 to 24 in.....	\$1.35	24 to 30 in.....	\$1.65
------------------	--------	------------------	--------

DOGWOOD, Golden Twig. (*Cornus Aurea*.) 5 to 6 ft. The green foliage and golden yellow branches make this plant very attractive, especially if planted in masses with the red-twigged variety. Clusters of small white flowers appear in spring followed by white berries. Grows well in partial shade.

2 to 3 ft.....	\$1.50	3 to 4 ft.....	\$1.90
4 to 5 ft.....			\$2.40

DOGWOOD, Red Twig. (*Cornus Siberica*.) 5 to 6 ft. The very bright red branches and green leaves make a most attractive combination. It grows well in almost any soil and nearly as well in shady places as in sun. White berries follow the clusters of white spring flowers.

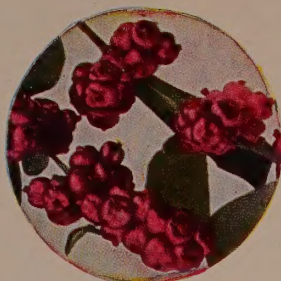

2 to 3 ft.....	\$1.50	3 to 4 ft.....	\$1.90
4 to 5 ft.....			\$2.40

DOGWOOD, Variegated Leaf. (*Cornus Elegentissima*.) 4 to 5 ft. The variegated leaves, green edged with a creamy white, growing on red stems, make this a very distinctive and attractive shrub. When used in the foundation planting or in the border it creates a contrast with green leaf shrubs. White flowers in clusters in spring are followed by white berries. See page 8.

18 to 24 in.....	\$1.90	2 to 3 ft.....	\$2.40
3 to 4 ft.....			\$3.00

MEDIUM SIZE SHRUBS (Continued)

ELDER, Cut-Leaf. (*Sambucus Canadensis Laciniata.*) 5 to 6 ft. The beautiful fern-like foliage and strong growth in either sunny or partially shaded locations make this plant very desirable. White flowers in large flat clusters blooming in spring.

18 to 24 in.....\$1.25 2 to 3 ft.....\$1.65
3 to 4 ft.....\$1.90

ELDER, Golden. (*Sambucus Aurea.*) 5 to 6 ft. The golden colored leaves contrast beautifully with the green of other shrubs. Large flat heads of white flowers appear in spring followed by black berries. The leaves color best when planted in full sun.

18 to 24 in.....\$1.25 2 to 3 ft.....\$1.65
3 to 4 ft.....\$1.90

EUONYMUS, Winged Bark Burning Bush. (*Euonymus Alatus.*) 5 to 6 ft. Noted for its flamingly brilliant autumn foliage. The branches have corky wings giving them a most unusual and attractive squared appearance. Small yellow flowers in May and June are followed by red fruit in fall. An excellent contrast shrub.

18 to 24 in.....\$3.25 2 to 3 ft.....\$4.50
3 to 4 ft.....\$7.00

FORSYTHIA, Lynwood Gold. 4 to 5 ft. A new deep golden yellow Forsythia, considered the finest of all. The bell-shaped flowers completely cover the branches bringing a brilliant and cheerful display in the spring. Has erect branches and excellent deep green foliage. If possible, plant at south or east foundation. See page 8.

2 to 3 ft.....\$1.65 3 to 4 ft.....\$1.90

HYDRANGEA, Hills of Snow. (*Hydrangea Arborescens Grandiflora.*) 3 to 4 ft. A valuable shrub for foundation planting or in the border, with large, round deep green leaves and large snow-white blossoms. In bloom from June until early fall. Grows well in partial shade.

18 to 24 in.....\$1.65 2 to 3 ft.....\$2.15

HYDRANGEA, Peegee. (*Hydrangea Paniculata Grandiflora.*) 3 to 4 ft. The immense conical shaped flowers appear as pure white in August and later change to a beautiful pink. Especially valuable because they are in bloom when most other shrubs have finished flowering. Perfectly hardy and if grown in full sunlight on rich soil the flowers will be large and well colored. Often cut for winter decoration. See page 8.

18 to 24 in.....\$1.65 2 to 3 ft.....\$2.15

JUNEBERRY. (*Amelanchier Canadensis.*) 5 to 6 ft. A beautiful May flowering shrub with every branch a mass of delicate, white bloom. The fruit that follows resembles the blueberry in appearance and taste. A welcome addition in the shrub border.

12 to 18 in.....\$1.10 18 to 24 in.....\$1.35

MOCKORANGE, Lemoine. (*Philadelphus Lemoinei.*) 4 to 5 ft. A dainty leaved, neat growing plant. Delightfully perfumed white flowers in profusion in June. Excellent for foundation plantings.

2 to 3 ft.....\$1.35 3 to 4 ft.....\$1.90

MOCKORANGE, Virginal. (*Philadelphus Virginalis.*) 5 to 6 ft. A splendid shrub with good foliage and compact habit. Pure white, sweetly fragrant, double flowers borne in profusion in June and July. Occasional flowers during later months.

2 to 3 ft.....\$1.65 3 to 4 ft.....\$2.15

PLUM, Double Flowering. (*Prunus Triloba.*) 5 to 6 ft. The double pink, rose-like flowers appear in profusion early in the spring, preceding the foliage. More hardy than the flowering Almond which it resembles very closely.

2 to 3 ft.....\$2.40 3 to 4 ft.....\$3.25

SNOWBERRY, White. (*Symphoricarpus Racemosus.*) 4 to 5 ft. Pink flowers in July followed by a mass of attractive waxy white berries which cling to the plant until early winter. Grows well in sun or partial shade. See page 8.

18 to 24 in.....\$1.00 2 to 3 ft.....\$1.25
3 to 4 ft.....\$1.50

SPIREA, Arguta. 3 to 4 ft. Graceful, arching branches are covered with white flowers in early spring. This shrub has excellent feathery foliage throughout the summer. Blooming before the Bridalwreath, it is one of the two or three earliest blooming spring shrubs.

18 to 24 in.....\$1.25 2 to 3 ft.....\$1.65
3 to 4 ft.....\$2.15

SPIREA, Ash Leaved. (*Spirea Sorbifolia.*) 4 to 5 ft. Has long plummy panicles of white flowers in July. Leaves resemble those of the Mountain Ash. Thrifty growing in either sun or partial shade.

18 to 24 in.....\$1.10 2 to 3 ft.....\$1.35

SPIREA, Bridalwreath. (*Spirea Van Houttei.*) 5 to 6 ft. Graceful arching branches covered with dainty white flowers in May. Excellent foliage all season. Thrifty growing in sun or partial shade. A splendid shrub. For Bridalwreath hedge plants, see page 4.

2 to 3 ft.....\$1.25 3 to 4 ft.....\$1.50

SPIREA, Snowgarland. (*Spirea Thunbergi.*) 3 to 4 ft. Graceful, arching branches are covered with very fragrant white flowers in early spring. This shrub has excellent feathery bright green foliage throughout the summer. Blooming before the Bridalwreath, it is one of the two or three earliest blooming spring shrubs.

18 to 24 in.....\$1.35 2 to 3 ft.....\$1.65
3 to 4 ft.....\$2.15

TAMARIX, Hispida. 5 to 6 ft. Lacy, silver-blue foliage. Bright pink flowers June and July. Grows more upright and compact than most Tamarix varieties.

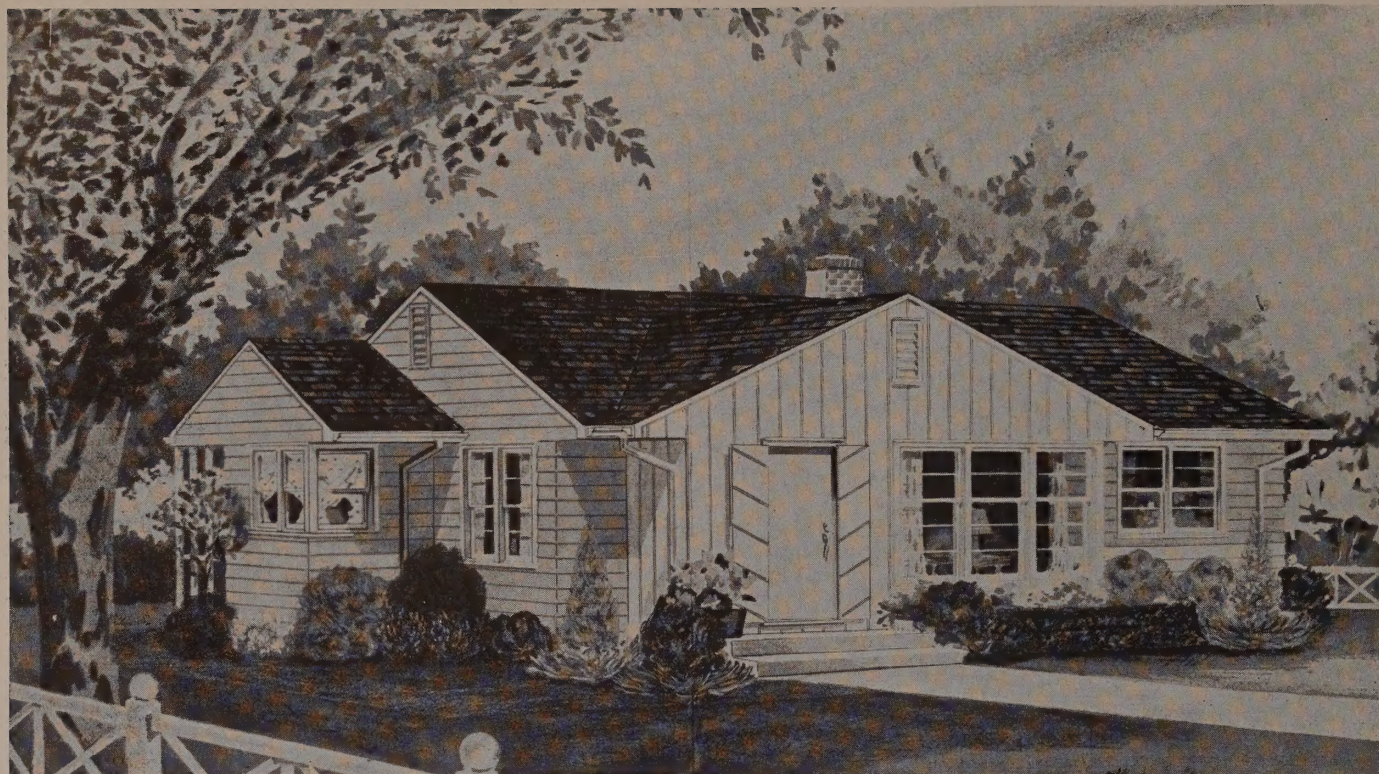

2 to 3 ft.....\$1.65 3 to 4 ft.....\$1.90

TAMARIX, Odessa. 5 to 6 ft. Feathery blue-green foliage and pink flowers in long, graceful sprays. Blooms in mid-summer.

2 to 3 ft.....\$1.65 3 to 4 ft.....\$1.90
4 to 5 ft.....\$2.15

WEIGELIA, Vaniceki. 3 to 4 ft. A new Weigelia with brilliant ruby-red trumpet shaped flowers. Heavy blooms in July, then intermittent blooms balance of summer. If possible, plant at south or east foundation. See page 8.

2 to 3 ft.....\$1.90 3 to 4 ft.....\$2.25
4 to 5 ft.....\$2.75

TALL GROWING SHRUBS

ARROWWOOD. (*Viburnum Dentatum*.) 6 to 8 ft. Upright, bushy shrub with attractive, smooth, dark green leaves. White flowers in flat clusters in May are followed by black berries. The foliage turns to beautiful shades of red and purple in autumn.

18 to 24 in.....\$1.65 2 to 3 ft.....\$1.90

BUFFALOBERRY. (*Shepherdia Argentea*.) 10 to 12 ft. A large silver-leaved shrub used mainly in shrub border plantings for color contrast. Small yellow flowers; fruits red to yellow.

18 to 24 in.....\$1.35 2 to 3 ft.....\$1.65

CRANBERRY, High Bush. (*Viburnum Opulus*.) 6 to 7 ft. A fairly large growing, attractive shrub, decorative a large part of the year. The white flowers appear in flat clusters in early spring, followed by bright scarlet clusters of berries, resembling cranberries, that remain until the late fall, long after the leaves have fallen. The leaves turn to bright colors in autumn.

18 to 24 in.....\$1.65 2 to 3 ft.....\$1.90

HONEYSUCKLE, Pink Tatarian. (*Lonicera Tatarica*.) 7 to 8 ft. Outstanding tall shrub particularly fine for screening unsightly views, for the background shrubbery border or as a tall specimen. Strong, shapely bush covered with an abundance of attractive pink flowers in May and June, followed by showy red berries. Bright green luxuriant foliage. Grows rapidly, hardy everywhere, does well in sun or partial shade.

2 to 3 ft.....\$1.35 3 to 4 ft.....\$1.65

HONEYSUCKLE, White. 8 to 9 ft. Sturdy, tall shrub which is similar to Pink Honeysuckle described above except it has pure white flowers.

3 to 4 ft.....\$1.65 4 to 5 ft.....\$2.15

5 to 6 ft.....\$2.75

HONEYSUCKLE, Zabelli. 6 to 7 ft. The best red flowered honeysuckle grown. Red blooms in May and June are followed by bright red berries. The deep green foliage forms a perfect background.

2 to 3 ft.....\$1.35 3 to 4 ft.....\$1.65
4 to 5 ft.....\$2.15

LILAC, Common. (*Syringa Vulgaris*.) 7 to 8 ft. The old-fashioned very fragrant lilac that blooms in May. Very hardy in most any soil or location, it can be grown as an individual shrub and kept trimmed or as a background plant to grow tall in its natural shape. Where a large hedge is desired, either trimmed or untrimmed, it is ideal. Specify when ordering the color wanted, either purple or white. For Lilac hedge plants see page 4.

2 to 3 ft.....\$1.65 3 to 4 ft.....\$2.15

LILAC, Rouen, Improved Persian. (*Syringa Rothamagensis*.) 6 to 7 ft. The improved Persian lilac has upright compact habit of growth, slender branches and small attractive leaves. The rich purple blossoms are produced in great profusion.

2 to 3 ft.....\$1.65 3 to 4 ft.....\$2.15

MAPLE, Siberian. (*Acer Ginnala*.) 8 to 9 ft. A graceful large shrub with handsome foliage which turns red in autumn. The brilliance of this coloring is unsurpassed. Should be more widely used in border plantings. See page 8.

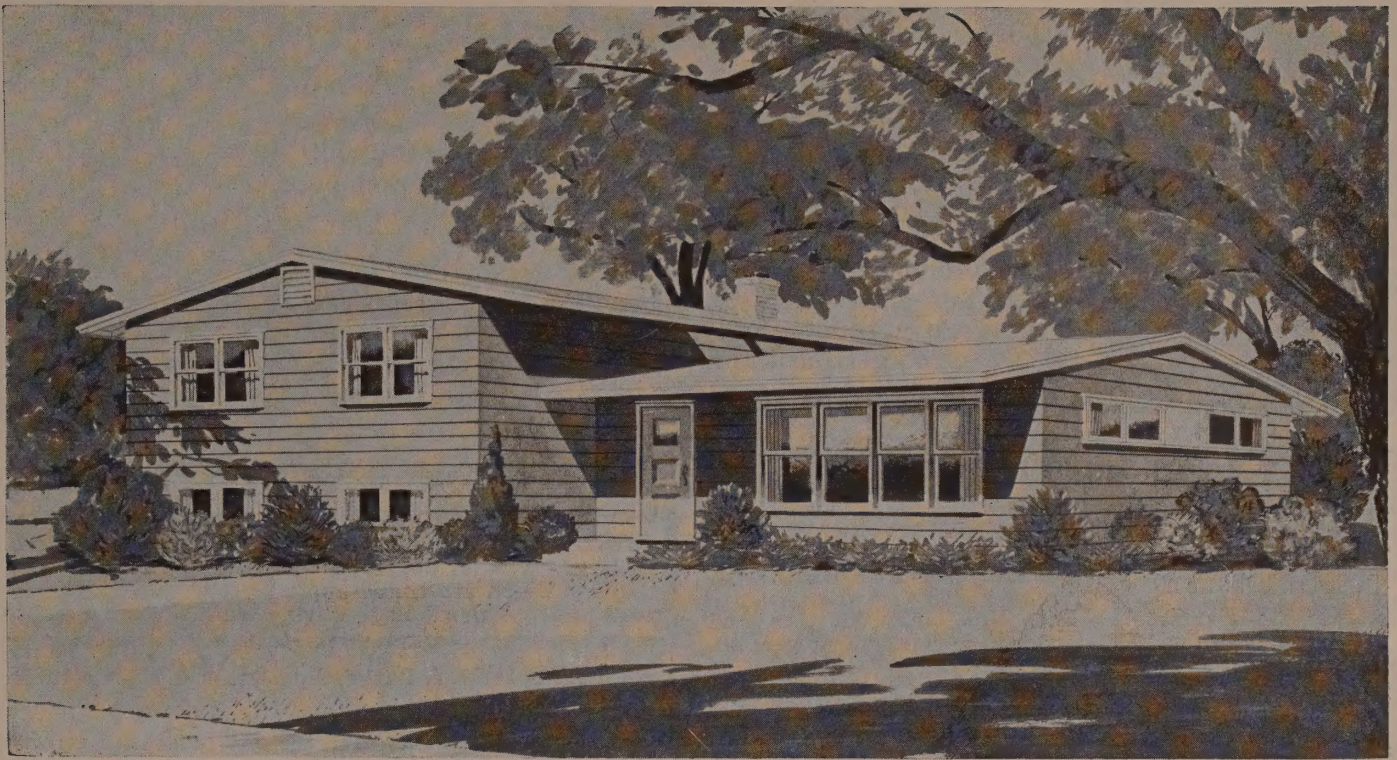

18 to 24 in.....\$1.65 2 to 3 ft.....\$1.90
3 to 4 ft.....\$2.75

MOCKORANGE, Large Flowered. (*Philadelphus Grandiflora*.) 8 to 9 ft. A strong growing shrub with excellent foliage. Bears numerous large, creamy white flowers two inches in diameter in late June.

2 to 3 ft.....\$1.35 3 to 4 ft.....\$1.90
4 to 5 ft.....\$2.40

MOCKORANGE, Sweet Scented. (*Philadelphus Coronarius*.) 7 to 8 ft. Delightfully fragrant pure white flowers in June. A vigorous shrub with food foliage.

2 to 3 ft.....\$1.35 3 to 4 ft.....\$1.90

NINEBARK, Golden Leaf. (*Physocarpus Aureus*.) 7 to 8 ft. The attractive golden yellow foliage makes a splash of color, especially so when planted with green or red leaf shrubs. White flowers in clusters about the middle of June followed by red seed pods. See page 8.

2 to 3 ft.....\$1.65	3 to 4 ft.....\$2.15
4 to 5 ft.....\$2.75	

OLIVE, Russian. (*Elaeagnus Angustifolia*.) 10 to 12 ft. A large, fast growing shrub or small tree with attractive silver foliage. Excellent for screening or background planting. Does well in dry, exposed locations.

2 to 3 ft.....\$1.35	3 to 4 ft.....\$1.65
4 to 5 ft.....\$2.15	

SNOWBALL. (*Viburnum Opulus Sterelis*.) 7 to 8 ft. Pure white, round flowers in clusters about the first of June, having the appearance of a large shrub covered with snowballs.

18 to 24 in.....\$1.65	2 to 3 ft.....\$1.90
3 to 4 ft.....\$2.75	

WAYFARING BUSH. (*Viburnum Lantana*.) 6 to 7 ft. Dark green leaves which are heart shaped, crinkled and leathery. Clusters of white flowers in June followed by red berries changing to black. This robust shrub is considered one of the finest in the *Viburnum* family.

18 to 24 in.....\$1.65	2 to 3 ft.....\$1.90
------------------------	----------------------

FRAGRANT FRENCH LILACS

CHAS. JOLY. The choicest of the double dark reds.

2 to 3 ft.....\$2.75	3 to 4 ft.....\$3.75
4 to 5 ft.....\$4.50	

ELLEN WILMOTT. Excellent large, double flowers of the purest white.

2 to 3 ft.....\$2.75	3 to 4 ft.....\$3.75
----------------------	----------------------

LUDWIG SPAETH. Very large, single, deep purple blossoms. An excellent variety.

2 to 3 ft.....\$2.75	3 to 4 ft.....\$3.75
----------------------	----------------------

MONTAIGNE. Most highly rated pink lilac. Very double and full.

2 to 3 ft.....\$2.75	3 to 4 ft.....\$3.75
----------------------	----------------------

PRESIDENT GREVY. Immense double delicate blue. One of the finest.

2 to 3 ft.....\$2.75	3 to 4 ft.....\$3.75
----------------------	----------------------

PRESIDENT LINCOLN. A real Wedgewood blue. An outstanding variety with single blossoms.

2 to 3 ft.....\$2.75	3 to 4 ft.....\$3.75
----------------------	----------------------

RUGOSA AND BUSH ROSES

AGNES. 3 to 4 ft. A pale amber-yellow rose which is free blooming, double and fragrant.

18 to 24 in.....\$1.65	2 to 3 ft.....\$2.15
------------------------	----------------------

AMELIA GREVEREAUX. 3 to 4 ft. The delightful double flowers resemble the Hybrid Tea Roses in their form and fragrance. They are rich bright red, blooming over a long period.

18 to 24 in.....\$1.65	2 to 3 ft.....\$2.15
------------------------	----------------------

GROOTENDORST, Pink. 3 to 4 ft. Clusters of attractive pink flowers that bloom recurrently through the summer.

18 to 24 in.....\$1.65	2 to 3 ft.....\$2.15
------------------------	----------------------

GROOTENDORST, Red. 3 to 4 ft. The small, double, bright red flowers bloom throughout the growing season in large clusters.

18 to 24 in.....\$1.65

HANSA. 3 to 4 ft. A splendid double red Rugosa Rose. The flowers are large and most attractive with their rich, deep red coloring. Perfectly double and fragrant.

18 to 24 in.....\$1.65	2 to 3 ft.....\$2.15
------------------------	----------------------

HARRISON'S YELLOW. 4 to 5 ft. The soft yellow, semi-double, fragrant flowers are borne during early June in great profusion. Foliage keeps bright and healthy looking until late fall.

18 to 24 in.....\$1.65

Hybrid Tea Roses

Rose Hill Hybrid Teas Are Famous For Quality

Rose Hill Hybrid Teas are vigorous, extra heavy 2 year plants, unexcelled anywhere for quality. They will produce many large, colorful flowers that first summer, creating a striking garden display and providing roses for house bouquets from June until late fall.

The following Hybrid Teas are all outstanding varieties. Try a few this spring and watch their first blooms early this summer. Buy from Rose Hill with assurance of getting the finest roses grown.

DEDUCT 10% WHEN ORDERING 10 OR MORE

RED HYBRID TEAS

AZTEC. Pat. No. 1648. Vivid scarlet orange. Large, non-fading blooms. Each \$2.75.

CHARLOTTE ARMSTRONG. Long red buds opening to cerise. Each \$1.60.

CHRYSLER IMPERIAL. Pat. No. 1167. All America award winner for 1953. Large high-centered flowers of glowing crimson-red. Each \$2.50.

CRIMSON GLORY. Large, very fragrant, deep velvety crimson. Each \$1.60.

NEW YORKER. Pat. No. 823. Large, fragrant, velvety scarlet, which does not fade. Each \$2.50.

PINK HYBRID TEAS

DUET. Pat. No. 1903. NEW. All America Award Winner for 1961. This beautiful new rose has two unusually warm shades of pink—inner petals soft salmon pink, outer petals deep pink to crimson. Each \$3.50.

HELEN TRAUBEL. Pat. No. 1028. A 1952 All America rose selection. Color ranges from luminous apricot to light sparkling pink. Each \$2.75.

PICTURE. Velvety clear rose-pink. Each \$1.60.

PINK FAVORITE. Pat. No. 1523. Medium pink. Large, long pointed deep pink buds open to well formed flowers. Each \$2.50.

TIFFANY. Pat. No. 1304. 1955 All America Award Winner. Long-pointed deep pink buds with golden-yellow shading at base of petals. Opens to perfectly formed, high-centered blooms of bright pink. Fragrant. Each \$2.75.

WHITE HYBRID TEAS

GARDEN PARTY. Pat. No. 1814. NEW. All America Award Winner for 1960. Huge flowers of creamy ivory which are tinted apple blossom pink at outer edge of petals. Foliage olive green. Each \$3.00.

McGREDY'S IVORY. Large, fragrant creamy white. Each \$1.60.

WHITE KNIGHT. Pat. No. 1359. Winner All America Award 1958. A great new white rose. Long pointed buds opening to double pure white flowers. Each \$3.00.

MULTI-COLOR HYBRID TEAS

CONFIDENCE. Pat. No. 1192. Pastel blend of peach, pink and yellow. Large, fragrant flowers. Each \$2.50.

KORDES PERFECTA. Pat. No. 1604. A new and outstandingly different rose. From cream white buds edged carmine the flower opens to flashing colors of deep pink, white and yellow. Each \$3.50.

YELLOW HYBRID TEAS

BURNABY. Pat. No. 1314. Clear light yellow. Exhibition form and size. Dark leathery foliage. Each \$2.50.

ECLIPSE. Deep gold buds opening to clear yellow. Each \$1.60.

PEACE. Pat. No. 591. The all time All America rose. Prized for its perfection and variety of color shadings. Lemon-yellow with every petal edged rose-pink. Each \$2.50.

HOW TO PLANT HYBRID TEA ROSES

1st. Dig a hole so large the roots won't be cramped.

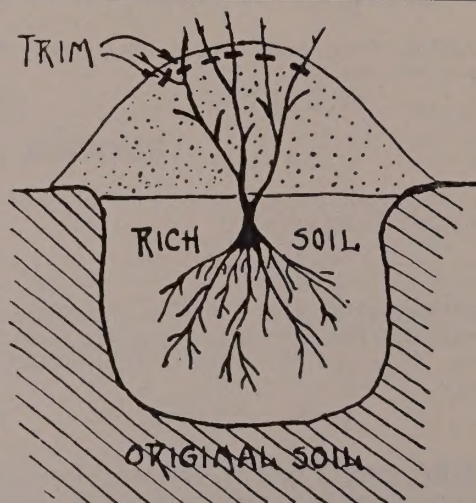

2nd. Place plant depth shown. Fill hole nearly to top with rich soil. Water thoroughly to firmly settle soil.

3rd. Trim plant to about 7 or 8 inches in height as illustration shows.

4th. Cover entire top of the plant with a mound of loose soil about 9 inches high.

5th. In about two weeks pull a little of the loose soil away to observe if buds are bursting open. If buds are opening, carefully pull away the mound of loose soil. If buds are still dormant, leave the mound of soil until buds are observed to burst open, then remove mound.

WINTER COVERING—When covering for winter, follow instructions 3 and 4 above. Also, over the mound of loose soil place about a foot of marsh hay, then a layer of waterproof paper to shed moisture.

Floribunda Roses

The Floribundas are delightful roses, rapidly increasing in popularity. They are the most truly everblooming of all roses, free flowering, bushy and covered with clusters of flowers all summer and fall. Floribundas are used in spot or group plantings by themselves and also with Hybrid Teas in the same garden, preferably in the foreground or at either side because they are not quite as tall as the Hybrid Teas. They should be given light winter protection.

DEDUCT 10% WHEN ORDERING 10 OR MORE

BETTY PRIOR. Carmine pink. Large clusters of small single flowers. Very profuse blooming. Each \$1.60.

EUTIN. Glowing carmine red. Profuse blooming cluster rose. Each \$1.60.

FASHION. Pat. No. 789. Coral pink overlaid with gold. Each \$2.00.

FIRE KING. Pat. No. 1758. NEW. All America Award Winner for 1960. Blood red buds opening to iridescent vermilion. Long lasting fully double flowers. Each \$2.50.

GARNETTE. Rich garnet-red, double flowers, borne on low bushy plant. Ideal for cutting, long lasting. Each \$1.60.

GOLD CUP. Pat. No. 1683. 1958 All America rose selection. Large, fragrant, unfading golden yellow blooms. Each \$2.00.

IVORY FASHION. Pat. No. 1688. Winner of All America Award for 1959. An ivory-colored rose with long slender buds opening to large fragrant flowers. Each \$2.50.

MA PERKINS. Pat. No. 1143. Pink. This 1953 AARS prize winner produces an abundance of pink blossoms with shadings of salmon, coral and red. Each \$2.00.

PRAIRIE FIRE. A NEW semi-double bright red rose originated by University of Minnesota. Heavy clusters, tall growing. Plant in background of rose bed or in spot locations. Each \$2.50.

RED PINOCCHIO. Pat. No. 812. Red. Clusters of velvety red flowers. Each \$1.75.

SPARTAN. Pat. No. 1357. Slowly opening buds of burnt-orange become orange-red and then reddish coral with sweet fragrance. Each \$2.50.

VOGUE. Pat. No. 926. Cherry-coral. Fragrant flowers three to four inches in diameter, shaped like a Hybrid Tea rose. 1952 All America rose selection. Each \$2.00.

Grandiflora Roses

The "Grandiflora" class features Hybrid Tea perfection of bloom, free flowering and long-stemmed clusters typical of many Floribunda roses. Grandiflora roses grow taller than Hybrid Teas and therefore should be planted in the background of the rose garden or against a fence or wall.

DEDUCT 10% WHEN ORDERING 10 OR MORE

EL CAPITAN. Pat. No. 1796. Rich cherry red. Free blooming, robust plant. Each \$2.75.

GOLDEN GIRL. Pat. No. 1912. A NEW free blooming bright yellow. The first fine yellow to reach the Grandiflora class. Each \$3.00.

MONTEZUMA. Pat. No. 1383. Beautiful scarlet-orange. So brilliant it stops the eye in any garden. Each \$2.75.

PINK PARFAIT. Pat. No. 1904. NEW All America Award Winner for 1961. A blend of delicate dawn-pink and rich rose pink. Each \$3.50.

QUEEN ELIZABETH. Pat. No. 1259. All America Winner for 1955. Beautiful pure pink. Each \$2.50.

STARFIRE. Pat. No. 1742. The All America selection for 1959. Glowing currant-red with glossy bronze-green foliage. Each \$3.00.

Climbing Roses

Climbing roses create a profusion of red, pink, white or yellow flowers in graceful arching sprays. A trellis of some kind is necessary in order that they may climb. In planting, follow instructions for Hybrid Tea Roses at bottom of page 16. In the fall the canes should be taken from the trellis, laid upon the ground and covered with soil, then with a foot of marsh hay and over that a layer of waterproof paper to shed moisture. We offer an excellent selection of climbers.

BLAZE. Scarlet red. A new vivid scarlet climber that has proved its excellence. Blooms intermittently through entire season. Strong, vigorous grower. Each \$1.60.

GOLDEN SHOWERS. Pat. No. 1557. All America Winner for 1957. A new daffodil yellow rose with long pointed buds and fragrant blooms. Almost thornless. Begins blooming the first year planted. May be grown as a climber, a self-supporting pillar or as a bush. Each \$2.75.

NEW DAWN. Apple blossom pink. An excellent everblooming rose that produces masses of fragrant flowers on long stems from June until frost. Blooms the first year planted. Each \$1.60.

PAUL'S SCARLET. Scarlet red. The clusters of large intense scarlet roses contain five to seven flowers on long individual stems. Blooms over a long period. Each \$1.60.

WHITE DAWN. White. America's finest white climbing rose. Developed by University of Minnesota. Double, pure white, blooms the first year planted. Each \$1.60.

Colorful Hardy Perennials

FOR BEAUTIFUL GARDENS—STRONG FIELD GROWN PLANTS

In spring, many of these field grown perennials are available in pots

Botanical Name	Common Name and Color	Height	Blooming Time	Each	Three
ACHILLEA, THE PEARL	Achillea—Double white	2 ft.	June to Sept.	60c	1.50
ALYSSUM SAXATILE COMPACTUM	Basket of Gold—Yellow	12 in.	Early spring	60c	1.50

Trees . . . for Comfort and Beauty

This Spring, be sure to plant some beautiful shade and ornamental trees. You will be rewarded with lasting comfort, beauty and enjoyment. Rose Hill grown trees have excellent root and branch development, which means you receive

vigorous, well-branched, dependable trees in perfect condition to thrive on your home grounds. So select now from the following fine shade and ornamental varieties that are best for our Upper Midwest area.

The height shown following the name denotes the maximum height of the tree.

BRILLIANT FLOWERING CRABS

These small trees are splendid for colorful spring and summer ornamental beauty.

CRAB, Bechtel's. 12 ft. A small tree covered in spring with beautiful pink flowers, rose-like, double and fragrant. Fine for lawn or shrub border.
4 to 5 ft. \$4.00 5 to 6 ft. \$5.50

CRAB, Dolgo. 15 ft. Covered with attractive red fruit which ripens in late August and makes the finest red jelly. Flowers are white flushed with pink. A handsome tree for the yard.
5 to 6 ft. \$2.50 6 to 8 ft. \$3.50

CRAB, Hopa. 15 ft. An extremely attractive and popular ornamental tree. Produces an abundance of rose-colored flowers. Small bright red crabs until fall.
4 to 5 ft. \$2.50 5 to 6 ft. \$3.00
6 to 8 ft. \$4.00

CRAB, Radiant. 15 ft. A beautiful new introduction from Minnesota Fruit Breeding Farm. A compact, symmetrical tree with rose-red blossoms in spring followed by small, very bright red crabs throughout summer and fall. See page 17.
4 to 5 ft. \$5.00 5 to 6 ft. \$6.00
6 to 8 ft. \$7.00

SHADE TREES

ASH, Green. (*Fraxinus Lanceolata*.) 50 ft. A clean, native tree excellent for lawn or boulevard. It is long-lived, very hardy and resistant to wind damage. One of the very best shade trees. See page 17.

1¼ to 1½ in. diam. \$6.50	1¾ to 2 in. diam. \$10.00
1½ to 1¾ in. diam. 8.50	2 to 2½ in. diam. 13.00

ASH, European Mountain. (*Sorbus Aucuparia*.) 30 ft. White flowers in May and June followed by clusters of orange-red berries that cling to the tree for several months. Attractive green foliage changing to a red and yellow in autumn. A highly decorative lawn tree. See page 17.

6 to 8 ft. \$4.00	1½ to 2 in. diam. \$ 8.00
1¼ to 1½ in. diam. . . 6.50	2 to 2½ in. diam. 10.00
2½ to 3 in. diam. . . . \$13.00	

BASSWOOD or AMERICAN LINDEN (*Tilia Americana*.) 60 ft. A vigorous growing tree with large heart shaped leaves and fragrant cream white flowers. Firm gray bark. Very good for lawn or boulevard. See page 17.

1¼ to 1½ in. diam. \$ 8.00	1¾ to 2 in. diam. \$12.00
1½ to 1¾ in. diam. . . 10.00	2 to 2½ in. diam. 14.00
2½ to 3 in. diam. . . . \$20.00	

GREEN ASH

Plant vigorous, well-branched,
dependable trees grown by
ROSE HILL NURSERY.

See Listings on Page 16

RADIANT CRAB
New University of Minnesota Introduction

MOUNTAIN ASH

BASSWOOD (American Linden)

NORWAY MAPLE

ROSE HILL SHADE and ORNAMENTAL TREES are well rooted, well branched, vigorous and dependable.

SCHWEDLER MAPLE

All trees have been carefully grown and are in prime condition for transfer to your home grounds.

CRIMSON KING MAPLE

SHADEMASTER LOCUST

BIRCH, Canoe, White or Paper. (*Betula Papyrifera*.) 50 ft. A graceful tree with white bark and slender branches. The deep green leaves are pointed and oval shaped. Excellent lawn tree, especially effective among evergreens. Plant singly or several in a clump.

5 to 6 ft.....\$2.75	1 ¼ to 1 ½ in. diam.....\$6.50
6 to 8 ft..... 4.00	1 ½ to 2 in. diam..... 8.75

10% off for 3 or more Canoe Birch

BIRCH, Cut Leaf Weeping. (*Betula Alba Laciniata Pendula*.) 40 ft. A graceful, weeping, white-barked tree with deeply lobed leaves. Excellent lawn tree.

5 to 6 ft.....\$5.00	8 to 10 ft.....\$7.25
6 to 7 ft..... 6.00	10 to 12 ft..... 9.00

ELM, American. (*Ulmus Americana*.) 70 ft. This majestic tree is well known for its graceful beauty. Perfectly hardy and comparatively rapid in growth. Widely used both for lawn and boulevard planting.

1 ½ to 1 ¾ in. diam...\$8.00	2 to 2 ½ in. diam...\$12.00
1 ¾ to 2 in. diam... 9.50	3 to 3 ½ in. diam... 22.00

3 ½ to 4 in. diam.....\$33.00

HACKBERRY. (*Celtis Occidentalis*.) 50 ft. An outstanding shade tree with conspicuous ridged bark. Foliage resembles the American Elm. A very hardy native tree well suited for yard or boulevard planting. Grows well in all types of soil.

1 ½ to 1 ¾ in. diam.....\$8.50	1 ¾ to 2 in. diam.....\$10.00
--------------------------------	-------------------------------

LINDEN, Little Leaf European. (*Tilia Cordata*.) 40 ft. An excellent medium-sized tree with dense foliage and dark green, heart shaped leaves. Smaller ultimate height and smaller leaves than American Linden (Basswood) described on page 16.

6 to 8 ft.....\$7.50	1 ¼ to 1 ½ in. diam.....\$11.00
----------------------	---------------------------------

1 ½ to 1 ¾ in. diam.....\$15.00

LOCUST, Moraine. (Pat. No. 836.) 50 ft. A comparatively new Honeylocust developing fern-like, medium green foliage. Thornless and seedless. Fine for light shade.

6 to 8 ft.....\$10.00

LOCUST, Shademaster. (Pat. No. 1515.) 50 ft. This excellent new thornless Honeylocust has a straight, strong trunk, symmetrical branching and dark green, lacy foliage. Casts light shade. See page 18.

6 to 7 ft. (unbranched)....\$6.75	6 to 8 ft.....\$10.00
-----------------------------------	-----------------------

LOCUST, Sunburst. (Pat. No. 1313.) 50 ft. Bright golden foliage on 8 to 10 inches of the branch tips contrasts with the rich green foliage on balance of tree. Thornless and seedless.

6 to 8 ft.....\$10.00

MAPLE, Crimson King. (*Acer Platanoides* Crimson King—Pat. No. 735.) A spectacular new maple with red leaves spring, summer and fall. Creates a striking color contrast with other trees. See page 18.

6 to 7 ft. (unbranched)....\$6.50	6 to 8 ft.....\$12.50
-----------------------------------	-----------------------

MAPLE, Faasen's Red. (*Acer Platanoides* Faasen's.) Another beautiful new Maple with colorful red leaves spring, summer and fall. Makes a beautiful spot of color on the lawn.

1 ½ to 1 ¾ in. diam. (Balled and Burlapped).....\$35.00

MAPLE, Norway. (*Acer Platanoides*.) 50 ft. A large handsome shade tree with rounded head. Broad, dark green leaves turning to bright yellow in autumn. See page 18.

6 to 8 ft.....\$6.50	1 ¼ to 1 ½ in. diam.....\$11.50
----------------------	---------------------------------

MAPLE, Red Leaved or Schwedler's. (*Acer Platanoides* Schwedleri.) 40 ft. One of the very best of our ornamental shade trees. The foliage is a beautiful dark red in spring gradually changing to a deep green. See page 18.

6 to 8 ft.....\$7.50

MAPLE, Scarlet. (*Acer Rubrum*.) 50 ft. Attractive green leaves which turn brilliant red in fall. Red flowers in early spring that bloom before the leaves. A very desirable tree that is native to Minnesota.

6 to 8 ft.....\$6.50

MAPLE, Silver or Soft. (*Acer Dasycarpum*.) 60 ft. A rapid growing tree with attractive branches and foliage. The under side of the leaves is silvery green, the upper side light green.

2 ½ to 3 in. diam.....\$16.00	3 to 3 ½ in. diam.....\$22.00
-------------------------------	-------------------------------

MAPLE, Sugar or Hard. (*Acer Saccharum*.) 60 ft. An excellent tree with a shapely oval head. Leaves are bright green coloring in the fall to brilliant shades of red, orange and yellow.

8 to 10 ft.....\$8.50	1 ¼ to 1 ½ in. diam.....\$11.50
	1 ½ to 1 ¾ in. diam.....\$16.00

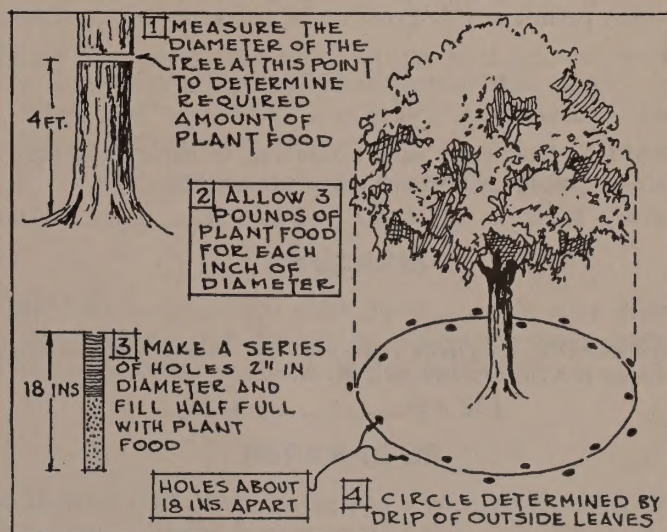

This hard wooded tree is best moved with a ball of earth. Add \$5.00 to above listed prices if balling desired.

POPLAR, Bolleana. (*Populus Bolleana*.) 50 ft. Erect and narrow, seldom reaching a width more than 8 to 9 feet. Smooth grey bark. Upper surface of leaves dark green, lower surface silvery white. A splendid tree when used either individually or for screening purposes. A rapid grower.

6 to 8 ft.....\$3.00	1 ¼ to 1 ½ in. diam.....\$5.00
8 to 10 ft..... 3.75	1 ½ to 2 in. diam..... 6.50

POPLAR, Lombardy. (*Populus Fastigiata*.) 50 ft. An extremely rapid growing tree, erect and narrow, reaching a width of 8 or 9 feet. Excellent for use as a tall screen or as an accent in landscape design.

8 to 10 ft.....\$2.00	1 ½ to 2 in. diam.....\$3.50
1 ¼ to 1 ½ in. diam..... 2.50	2 to 2 ½ in. diam..... 5.00
2 ½ to 3 in. diam.....\$7.00	

If your trees are not thriving as they should, use Rose Hill Fertilizer as directed in this illustration.

Delicious Fruits

Excellent Hardy Fruits For Home and Orchard

APPLES

DEDUCT 10% WHEN ORDERING 5 OR MORE

BEACON. This is the best early bearing apple for Minnesota, ripening in early September. Good quality, solid red and a heavy producer. Beacon has been featured at the Minnesota State Fair in recent years and has become the favorite early apple.

5 to 6 ft.....\$2.50 6 to 8 ft.....\$3.50

FIRESIDE. A new and excellent apple originated by the Minnesota Fruit Breeding Farm with quality and flavor better than the old Delicious. Keeps well all winter. Apples are large, crisp and sweet. Red.

5 to 6 ft.....\$2.50 6 to 8 ft.....\$3.50

HARALSON. Originated by the Minnesota Fruit Breeding Farm. Solid red color of fine quality for cooking and eating. Tree bears when young. An all-winter keeper. One of the best winter apples for home or market.

5 to 6 ft.....\$2.50 6 to 8 ft.....\$3.50

NORTHWEST GREENING. Fruit is green, turning yellow as it matures. Firm and of large size. Good winter keeper. Fine cooking apple for late winter and spring.

5 to 6 ft.....\$2.50 6 to 8 ft.....\$3.50

DWARF APPLES

DEDUCT 10% WHEN ORDERING 5 OR MORE

These new dwarf apples are especially desirable where space is limited or where several trees are wanted in a relatively small area. They are also convenient to harvest. Seldom reach a height of more than 8 or 9 feet. For best results, permit sod to grow up to trunk or winter mulch.

BEACON. Best early apple, ripening in early September. Good quality, solid red, heavy production.

4 to 6 ft.....\$4.25 5 to 7 ft.....\$5.00

HARALSON. Excellent red apple for eating and cooking, bears heavily. Keeps well all winter.

4 to 6 ft.....\$4.25

McINTOSH. Splendid red eating apple, highly productive, keeps until January.

3 to 5 ft.....\$3.50

Delicious Minnesota Apples

PRAIRIE SPY. This tree was originated by the Minnesota Fruit Breeding Farm. The fruit is carmine red, keeps all winter, and is a fine flavored winter apple. The tree is hardy, productive and a good grower.

5 to 6 ft.....\$2.50 6 to 8 ft.....\$3.50

WEALTHY. Fruit of the best quality. Bears when young. A good market variety. September to December. Red.

5 to 6 ft.....\$2.50 6 to 8 ft.....\$3.50

CRAB APPLES

DEDUCT 10% WHEN ORDERING 5 OR MORE

DOLGO. Covered with attractive dark red plum-shape fruit which ripens in late August and makes the finest red jelly. A handsome tree with light green foliage.

5 to 6 ft.....\$2.50 6 to 8 ft.....\$3.50

WHITNEY. Splendid for eating and for sweet pickles. Fruit is red, large and of fine quality. Very hardy and productive.

5 to 6 ft.....\$2.50 6 to 8 ft.....\$3.50

PLUMS

DEDUCT 10% WHEN ORDERING 5 OR MORE

SUPERIOR. A deep red plum of high quality. Fruit is large with small pit and ripens early. Highly recommended. Mid-August.

5 to 6 ft.....\$2.50 6 to 8 ft.....\$3.50

TOKA. An excellent pollinizer for all other plum trees. Unlike most pollinizers, this well shaped tree bears large, delicious, dark red fruit.

5 to 6 ft.....\$2.50

UNDERWOOD. Excellent red plum with firm, juicy fruit and small pit. It hangs well to the tree and ripens over a long period. One of the best for eating or cooking. Starts to ripen in early August.

5 to 6 ft.....\$2.50 6 to 8 ft.....\$3.50

PEARS

PARKER. Originated by Minnesota Fruit Breeding Farm. A fine cooking and eating pear. Tree is large and vigorous, bearing fruit mid-September.

5 to 6 ft. \$3.50

CHERRIES

DEDUCT 10% WHEN ORDERING 5 OR MORE

METEOR. An excellent new cherry introduced by Minnesota Fruit Breeding Farm. Highly productive, large bright red fruit, delicious for pies, sauce or jelly. Tree is hardy with upright, moderately spreading habit and has unusually large leaves producing a dense, luxuriant foliage which is highly resistant to leaf spot.

4 to 5 ft. \$3.00 5 to 6 ft. \$4.00

NORTH STAR. Another splendid new cherry introduced by Minnesota Fruit Breeding Farm. Heavy producer of large, deep red cherries which are especially fine for pies. The tree is small, hardy and highly resistant to leaf spot. North Star, because of its dwarf nature, is a valuable addition to the home grounds for its ornamental beauty as well as its excellent, easily accessible fruit. Ripens in July, about two weeks earlier than Meteor.

4 to 5 ft. \$4.00 5 to 6 ft. \$5.00

GOOSEBERRIES

PIXWELL. Large light green oval berries turning pink when ripe. Easily picked because they grow on slender stems about two inches below the branches. Plant is vigorous and a dependable bearer.

	Each	Per 5	Per 10
2 year No. 1.....	90c	\$4.00	\$7.75
Extra Heavy Bearing Size.....	\$1.10	5.00	9.00

BLACKBERRIES

ALFRED. Large pure blackberries of fine quality. Sweet and juicy. Winter protection is recommended.

12 for \$2.00, 25 for \$3.50, 50 for \$6.50.

BLACK RASPBERRIES

CUMBERLAND. A late fruiting black raspberry. Berries large and of fine flavor. 12 for \$2.50, 25 for \$4.00, 50 for \$7.50.

CURRENTS

RED LAKE. A new red currant originated at the Minnesota Plant Breeding Farm. It is exceptionally large and of fine flavor. This variety has been tested for several years and has proven to be the largest and finest currant for both home and market use.

	Each	Per 5	Per 10
2 year No. 1.....	60c	\$2.50	\$4.50
Extra Heavy Bearing Size.....	75c	3.00	5.50

GRAPES

BETA. Perfectly hardy without winter protection. A rapid grower, early bearer, good sized fruit, bunches often weighing one-half to one pound each and of good quality. A fine blue grape for jelly or grape juice. 2 year No. 1 each 50c, 5 for \$2.25, 10 for \$4.00.

MOONBEAM. A white grape which is deliciously mild and sweet. Hardy without winter protection Twin City area and south.

2 year No. 1 each \$1.00, 5 for \$4.50, 10 for \$8.50.

RED RASPBERRIES

LATHAM. Introduced by the Minnesota Fruit Breeding Station. A splendid variety for home and market. A bush that is vigorous and hardy, producing a heavy yield of large, firm, dark red berries that are excellent in quality.

First Class Plants	Extra Heavy Selected Plants
12 for\$ 2.75	12 for\$ 3.25
25 for 5.00	25 for 5.75
50 for 9.25	50 for 10.50
100 for 17.50	100 for 19.00

Quantities of 250, 500 or 1,000 will be quoted upon request.

STRAWBERRIES

A splendid offering of strawberries. All varieties listed have perfect flowers and will fruit if planted alone. Quantities of 250, 500 or 1,000 will be quoted upon request.

EVERBEARING STRAWBERRIES

GEM. Berries are large, round and bright red with good flavor and quality. They are firm and handle well without injury, making a good market variety. Unlike most ever-bearers, it is a good plant maker.

25 for \$2.00, 50 for \$3.50, 100 for \$6.00.

SUPERFECTION. A fine, new everbearing strawberry especially recommended for home gardens. Large, sweet, bright colored fruit, excellent for eating fresh or freezing. 25 for \$2.50, 50 for \$4.50, 100 for \$8.00.

JUNEBEARING STRAWBERRIES

EARLIMORE. A brand new strawberry introduced by the University of Minnesota Fruit Breeding Farm. Bright red, fine-flavored, juicy berries. Produces an abundant crop of medium to large berries over a long season. Good for market and especially fine for home dessert use. 25 for \$2.00, 50 for \$3.50, 100 for \$6.00.

PREMIER. Early. It starts fruiting early and maintains a heavy production for a long period. The berries are bright red, very firm, solid inside and maintain their size well throughout the season.

25 for \$1.75, 50 for \$3.00, 100 for \$5.00.

RHUBARB

CHIPMAN'S CANADA RED. Large, tender juicy stalks that are solid red throughout. Makes excellent cherry-red sauce and pies. \$1.00 each. 5 for \$4.50.

ASPARAGUS

WASHINGTON. Fine quality and a vigorous grower. Rust resistant. Strong 2 year roots.

12 for\$1.20	50 for\$3.50
25 for 2.00	100 for 5.50

We make many plans for customers who cannot come to the nursery or who live too great a distance to justify a personal call. If you will describe your property on chart below and mail all data to the nursery, we will furnish a detailed planting plan. For such plan-by-mail service we ask a deposit of \$5.00 which amount will stand as a credit against any order of nursery stock in 1961.

1. Give measurements of your house and lot (as illustrated).
2. Let one square equal four feet.
3. Indicate house front and which direction it faces.
4. Mention any shrubs, shade trees, evergreens or other plants you especially like.
5. After completion, tear out chart, bring to nursery, or mail with house photographs to Rose Hill Nursery.
6. If photographs are not available, draw rough sketch of house front showing location of all front windows.

BUILDING A NEW LAWN

PLANTING TIME — Spring, summer or fall. Best time April, May, August and September.

SOIL PREPARATION — Best results are obtained from a well prepared seed bed. A well enriched sandy loam cultivated 6 inches deep is ideal. A heavy clay loam should have worked into it a liberal supply of rotted manure or peat to a depth of 6 inches to make the ground more friable, or if cost is not prohibitive, a layer of sandy loam top soil 4 inches thick may be laid over the clay. Where the soil is very sandy 3 inches of clay laid over the sand followed by a 4 inch layer of loamy soil is best. In any event the seed bed should be thoroughly cultivated and raked. If you have reason to believe the soil is acid, an application of ground limestone should be raked into the ground using 60 pounds per 1000 square feet.

FERTILIZING — Prior to seeding apply Rose Hill Fertilizer at the rate of 100 pounds per 3500 square feet.

SEEDING — Sow the grass seed when there is no wind. Use 1 pound to 250 square feet. It is well to divide the seed, sowing $\frac{1}{2}$ of it walking back and forth north and south and the other $\frac{1}{2}$ walking east and west to secure more even distribution. After seeding rake lightly and roll with a light roller, if possible.

WATERING — Water frequently to keep the surface soil moist. Use a fine spray to prevent washing. Do not let the surface soil dry out until the new lawn is established. During hot windy weather several waterings a day may be required until the grass is at least an inch long. Frequency of watering may be reduced after lawn has become established. Redtop and Ryegrass sprout in 4 to 7 days. Bluegrass requires 15 to 28 days. Moisture must be present to aid sprouting.

REPAIRING AN OLD LAWN

To repair a thin lawn, rake ground vigorously. Add a light application of top soil. Apply Rose Hill Fertilizer as described above. Apply seed as needed and keep watered.

GROUND LIMESTONE

Where soil is acid, use this finely ground limestone to sweeten. Whenever possible soil should be tested to determine acidity. In the absence of a soil test, use 60 pounds per 1000 square feet as an average application.

10 lbs.....50c 50 lbs.....\$1.50

MARSH HAY

Marsh hay is the best winter covering for roses, perennials, clematis, strawberries and bulbs. It protects against alternate freezing and thawing which causes winter injury. Bale \$1.25 called for; \$1.50 delivered (fall delivery only).

PULVERIZED PEAT

Peat spaded into a sandy soil helps the soil hold moisture and thereby induces growth. Spaded into a clay soil, it makes the soil easily workable and prevents the forming of a hard caked surface. Used as a mulch about plants or as a top dressing on lawns it helps to conserve moisture. Odorless and pleasant to handle. Available at the nursery or by Rose Hill truck delivery.

1 bushel.....\$1.00

Call Midway 6-7541 from either city for prices by the cubic yard.

RICH SOIL

Available for delivery by the cubic yard to all points in the Twin Cities. Minimum delivery two yards.

Call Rose Hill Nursery MI. 6-7541 for delivered prices.

Planting soil by the bushel can be called for at the nursery. Put up in heavy paper bags.

1 bushel (not delivered).....90c

SPACE FOR NOTES OR ADDITIONAL ITEMS

(See order blank reverse side)

ROTTED MANURE

Thoroughly decomposed barnyard cow manure. Supplies plant food and improves the condition of soil making it better suited for root growth. Available at the nursery or by Rose Hill truck delivery. Put up in heavy paper bags.

1 bushel.....\$1.60 3 bushels.....\$4.50

5 bushels.....\$7.25

Rose Hill Nursery

NEW HYDRA GUN SPRAYER (To Apply Liquids)

This is an ideal sprayer for the home grounds. Adjusts to fine or coarse spray. Pump of brass tubing. Shoots spray up to 20 feet. Glass jar holds $\frac{1}{2}$ gallon and is interchangeable with U. S. thread fruit jars. Price \$5.95.

KELTHANE FOR RED SPIDER CONTROL

New Kelthane is the finest product on the market for killing the red spider and red spider eggs on evergreens. Also, it is very effective against all mites that may attack flowers, shrubs, roses, fruits, vegetables and evergreens. Kelthane acts fast, has a long lasting residual effect and is safe to use. As a control, spray Kelthane in early June and again in August. To combat infestation, use whenever spider is present. 4 oz. \$1.25. 8 oz. \$2.25.

REDI-KIL

A complete garden insect, mite and mildew spray. Contains Malathion, Perthane, Kelthane and Karathane to kill insects such as aphids, leaf hoppers, beetles, caterpillars, flies, mosquitoes, ants, chiggers, spider mites, fleas, spiders, scale insects, borers and thrips. Also effective against powdery mildew. 4 oz. 98c. Pint \$2.95.

FUN-G-KIL

Contains Captan and Karathane for control of black-spot and mildew on roses and mildew on flowers and shrubs. By combining FUN-G-KIL and REDI-KIL into one spray, you can control all common diseases and insect pests. 8 oz. \$1.39.

CHLOR-SPRAY

45% Chlordane liquid concentrate. Kills night crawlers, cutworms, chinch bugs, chiggers, slugs, snails, wireworms, white grubs including Japanese beetle grubs and grasshoppers. Destroys roaches, silverfish, crickets and ants in the home. 8 oz. \$1.19. Pint \$1.98.

DORM-OIL

Can be used either as a dormant spray or a summer spray to control scale insects such as oyster shell scale, pine needle scale and others. Pint 79c. Quart \$1.49.

MALA-SPRAY

50% low-odor Malathion liquid concentrate. Controls aphids, mites, mealy bugs, scale and many other insects. Also useful as a fly and mosquito control. 4 oz. 98c. Pint \$2.89.

PHALTAN

Controls black-spot, mildew and other diseases on roses, iris, chrysanthemums and other flowers. Especially effective against black-spot and mildew on roses. 6 oz. \$1.98.

PAX CRABGRASS AND SOIL PEST CONTROL

A dormant seed killer that knocks out crabgrass seed. Apply in fall or early spring up to about May 1. The seed killing ingredients are highly insoluble and remain on the surface to kill seeds that ripen and fall after application in addition to those on the ground at time of application. One application protects against reinfestation from one to two years. Pax also kills soil pests such as night crawlers, grubs, cutworms and ants. Use only on established lawns. A 40 lb. bag treats up to 2,000 square feet.

20 lbs.....\$5.50 40 lbs.....\$9.98
